

Using an Ontario Driver's Summary and VINShield.ca to Determine if a Customer Has Previously Exported a Vehicle

How-to guide:

1. Obtain and print a photocopy of the customer's driver's license
2. Write on a blank part of the photocopy "Driver's Summary"
3. Take the photocopy down to your local Service Ontario ([find your nearest location](#))
4. Provide it to them and state you would like a Driver's Summary for this customer (the driver's summary is different than a driver's abstract, it will list all previously and currently registered vehicles attached to the driver's license)
5. Pay the \$12 fee and you will be given results similar to the following:

| | | |
|--|--|---|
| Ministry of Transportation Road User Safety Division | Ministère des Transports Division de Sécurité Routière |  |
| MINISTRY CONTROL NO./NO DE CONTRÔLE DU MINISTÈRE | SEARCH DATE/DATE DE RECHERCHE | |

6. Search previously registered or actively registered VINs into VINShield.ca

7. Use results to determine if the individual has previously registered a vehicle that was exported
